

# Hub-4 Pro

## smartIAQ® GridSet™ Low Voltage Power Supply Unit

### PRODUCT DESCRIPTION

The smartIAQ Hub-4 Pro delivers a streamlined power and BMS communication solution for up to four smartIAQ GridSet Pro units, helping reduce installation costs and complexity. With only a single incoming mains connection, the Hub-4 Pro distributes low-voltage power to multiple devices using simple plug-and-play Ethernet-style cables—no downstream hard wiring, conduit, or specialized labor required. In addition, the Hub-4 Pro facilitates BMS integration for GridSet Pro units. Full control and data communication can be managed by appropriately configured Building Management Systems.

Its extended low-voltage cabling capability allows the Hub-4 to be positioned conveniently near existing power sources while reliably supplying GridSet units located throughout the space. The result is a clean, flexible, and cost-effective installation tailored for modern IAQP deployments.

### STANDARD FEATURES

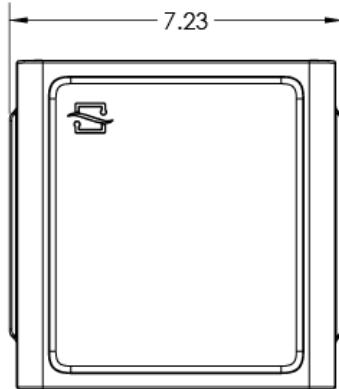

- Single power connection (input) to Hub
- 48 VDC Low Voltage outputs for up to 4 smartIAQ GridSet Pro units
- BMS integration via RS-485 port in either:
  - Modbus (sIAQ-HBP4-MB)
  - BACnet (sIAQ-HBP4-BN)
- Uses CAT-5/5e wiring
  - Max 300ft per GridSet unit
- Rated for Plenum Applications
- 1/2" Trade size knock-out for standard electrical gland

## SIAQ-HB4P-MB/BN: SPECIFICATIONS

<b>Input Voltage</b>	110-240 VAC 50/60Hz	<b>Dimensions (LxWxH)</b>	7.125 " x 7.25" x 2.66"
<b>Output Voltage</b>	48 VDC	<b>Weight</b>	2.5 lbs
<b>Power Consumption</b>	200 W (Max)	<b>GridSet Units Served</b>	Up to 4 (Max)
<b>Minimum Circuit Amps (MCA)</b>	5.25 A	<b>Gridset Compatibility</b>	Power Supply Only
<b>Temperature Range</b>	0 - 140 F	<b>Gridset Pro Compatibility</b>	Power Supply and BMS Communication
<b>Humidity Range</b>	20 - 90% RH (non-condensing)	<b>Compliance and Certifications*</b>	UL 62368-1, CSA 22.2 #62368-1
