

LS-277V

Power Supply for Ionizer Products

PRODUCT DESCRIPTION

The LS-277V is a 277V power transformation solution for air ionization systems requiring 120V input power.

STANDARD FEATURES

277 VAC input, 120 VAC output, capacity to power units up to 75W
Powers up to four IDF-2 units simultaneously

SPECIFICATIONS

Ionizers Supported	IDF-2 (up to 4 units per transformer)	Temperature Range	-20°F to 140°F
Input Voltage	277 VAC	Humidity Range	0-100% RH
Output Voltage	120 VAC	Unit Dimensions	3.5"L x 2.2"W x 2.6"H
Frequency	50/60HZ	Electrical Listings	UL, cUL
